- *What is the ACT? The ACT is a national college admission and placement examination.*
- *The ACT is curriculum-based. The ACT is not an aptitude or an IQ test. Instead, the questions on the ACT are directly related to what students have learned in high school courses in English, mathematics, and science. Because the ACT tests are based on what is taught in the high school curriculum, some students are more comfortable with the ACT than they are with traditional aptitude tests or tests with narrower content. This is your chance to take the ACT without it counting and a great way to practice for the REAL thing.*
